End-of-Sale and Transition Notification - (VidiPlay Product Line)

December 15, 2016

Due to a shift in product strategy, the purpose of this communication is to serve as official notice regarding the start of the end-of-sale process by ATX Networks for its VidiPlay IPTV Middleware and the transition of all products to our partner, InfoValue Computing, Inc.

The tables below include the end-of-sale and transition process milestones with associated dates, as well as the list of part numbers affected by this notice. There are no functionally better or equivalent replacement products available from ATX Networks for the SKUs in the table below at this point in time. However, based on our partnership with InfoValue, all affected product SKUs are available with a different part number.

For customers with active product warranties or service level agreements, technical support & warranty/non-warranty repair will be available as specified in the table below.

Please contact your ATX Networks sales representative for more details.

End-of-Sale and Transition Milestones

Milestone	Definition	Date
End-of-Sale and Transition Announcement	Date of communication announcing start of the end-of-sale and transition process	Dec 15, 2016
Product Transition	Start of the transition of the VidiPlay middleware product line to InfoValue Computing, Inc.	Jan 1, 2017
End-of-Sale by ATX Networks	Last day on which affected product SKUs in this communication can be purchased through ATX Networks	Feb 15, 2017
End-of-Support and Maintenance by ATX Networks	Last day beyond which technical support and warranty or non-warranty repair or replacement will no longer be offered. Last day beyond which firmware updates with maintenance and/or bug fixes will no longer be released through ATX Networks. After this date ATX will no longer develop, repair, maintain or test the software. All future support will need to be done through InfoValue.	Mar 31, 2017
