RE-KEYING CORRUPTED Pro:Idiom® TVS

1. Re-keying Corrupted Pro:Idiom® TVs

- Capable of streaming key refresh file via configurable agile QAM directly to a TV with a corrupted/lost Pro:Idiom key
- Compact & light form factor for ease of portability by technicians
- LCD display & pushbutton control for quick & easy configuration
- RF output port for direct connection to the TV with a coax jumper

This page intentionally left blank.

Pro:Idiom® KEY RENEWAL PROCESS WITH ReKEY NANO

2. Pro:Idiom® Key Renewal Process with ReKEY Nano

- Determine QAM frequency & MPEG program number mapping of a non-functional Pro:Idiom encryted program on the TV
- Plug-in & power on the ReKEY device, wait for boot up
- Enter the selected program's QAM frequency & program number into the ReKEY device via LCD screen menu
- Tune TV to selected non-functional channel & connect coax-jumper from the ReKEY device RF output port to the TV's RF input port
- Select "Stream" from the ReKEY device menu
- Wait for color bars & Pro:Idiom logo to appear on TV
- Disconnect ReKEY device & reconnect main RF feed & verify previously non-functional channel is working
